Experience

WordPress Developer

Media Findme Communication And Trading Company Limited

~ 05/2022 – 09/2024

- Developed WordPress websites mainly with Flatsome and other builders, occasionally using **Headless WordPress with React and GraphQL** for custom solutions.
 - Integrated **Advanced Custom Fields (ACF)** for dynamic content control
 - Developed custom themes, improved SEO performance, and enhanced page speed scores
 - Managed deployments on VPS
-

Projects

IELTS Prediction Test

<https://ieltspredictiontest.com/>

- Built a headless WordPress + **Next.js** website for IELTS practice tests
- Integrated **GraphQL**, **Ant Design**, and custom registration workflow
- Optimized performance and SEO with static generation and clean architecture

Reipen & Bünzel Interior Design

<https://rb-interior.design/>

- Website for German interior design firm built with **WordPress** and **Alpine.js**
- Highlighted services and projects through a visual-first layout

Trống Đồng Palace

<https://trongdongpalace.com/>

- SEO-optimized wedding and event venue website using **WordPress**
- Featured dynamic venue pages, galleries, and contact forms

Factory Plus Australia

<https://factoryplus.com.au/>

- Laravel + Alpine.js platform showcasing industrial and home products
 - Focused on performance, structured product listing, and clear navigation
-
